 Kiswahili [sw](#) / English [en](#)

Tom anaumwa jino. Jino lake linauma sana.

...

Tom has a toothache. His tooth hurts very much.

Anahitaji kumwona daktari wake wa meno,
lakini kwanza anahitaji kitu fulani kwa ajili ya
maumivu.

...

He needs to see his dentist, but first he needs
something for the pain.

Anaenda katika duka la dawa la jirani.

...

He drives to the nearest pharmacy.

“Nina maumivu ya jino, una chochote cha kunisaidia?” Anauliza.

...

“I have a toothache,” he says. “Do you have anything for that?”

“Ndiyo, hizi ni baadhi ya dawa za maumivu. Hauhitaji maelekezo ya jinsi ya kutumia dawa hii.”

...

“Yes, here are some painkillers. You don't need a prescription for these.”

“Asante. Zinagharimu kiasi gani?”

...

“Thank you. How much do they cost?”

“Zinagharimu yuro tisa. Lakini ni lazima uonane na daktari wa meno.”

...

“They cost nine euros. But you should see a dentist.”

“Sawa, nitampigia simu daktari wangu wa meno kesho asubuhi.”

...

“Okay, I will call my dentist tomorrow morning.”

“Kama utahitaji dawa kubwa zaidi, utalazimika kupata maelekezo ya jinsi ya kuitumia kutoka kwa daktari wa meno au daktari.”

...

“If you need stronger medicine, you will need to get a prescription from your dentist or doctor.”

“Asante! Kwaheri.”

...

“Thank you! Goodbye.”
